

STEPSEPT

HOOF HYGIENE

SOLUTION

STEPSEPT

FOR YOUR COWS,

YOUR PROFITABILITY & THE ENVIRONMENT

StepSept PB-50

Pre-bath hoof cleaner, extends the efficacy of your primary treatment hoofbath.

StepSept Power

Directly effective on your cows' hooves as it reduces the pH level and stops bacteria. Effective even in the heaviest organic soil loads.

Combined treatment with StepSept PB 50 followed by StepSept POWER in the automatic BouMatic StepGuardian hoofbath system allows you to improve the health of your cows' hooves.

StepSept PB-50

Pre-bath hoof cleaner, extends the efficacy of the treatment bath

- **Improved efficacy** - contains high levels of penetrating surfactants to loosen filth and soil encouraging it to drop before the cow enters the treatment bath. The hooves of your cows are better prepared for the treatment bath.
- **Extended efficacy** - extends the efficacy of your primary treatment hoofbath solution.

StepSept Power

Concentrated hoofbath acidifier

- **Economical** - Product consumption is optimized, can handle up to 500 cows before hoofbath change is required (depending on initial soil load).
- **Efficacy ensuring healthy hooves** - Direct impact on the environment of bacteria that cause lameness.
- **Innovating** - Employs an exclusive formula that maintains the pH level under 4 even in heavy organic soil load.
- **Ecological** - Allows for water optimization and controlled renewal of bath solutions.
