XPRESS MATS

ANTI-FATIGUE,

ANTI-SLIP MATS

Xpress Mats are the ideal anti-fatigue mats to be placed in milking parlours or in any area where standing for long periods is required.

Xpress Mats are interlocking 20 in. x 20 in. (50 cm x 50 cm) pieces and are adaptable to any kind of milking parlour. The mats are designed to make sure that debris are easily flushed. You therefore always keep a clean surface. Xpress Mats are

BouMatic floor slabs for milking parlours are above all:

- **Easy to install** - The installation of parlour mats is very easy. Xpress Mats are interlocking 20 in. x 20 in. (50 cm x 50 cm) pieces and are adaptable to any kind of parlour.
- **Clean & hygienic environment** - Xpress Mats are easy to clean and they contribute to a hygienic odourless environment. PVC material is easy to keep clean and is designed to flush debris easily.
- **Reliable mats** - Xpress Mats are impervious to chemicals and resistant to steam. They have a high resistance to wear. Therefore, they are reliable as a long-term investment.
- **Innovative & ingenious design** - The open design of BouMatic mats prevents build-up. Moreover, the interlocking design keeps mats in place to ensure a continuous and barrier-free surface.
- **Anti-slip surface** - The anti-slip surface of Xpress Mats provides an optimum level of cohesion for operator comfort, safety and ease of movement.
